Sexual Horror Let Loose by France on the Rhine

DISAPPEARANCE OF YOUNG GERMAN GIRLS

The article we publish below from the pen of Mr. E. D. Morel is a revelation so horrible that only the strongest sense that it is our duty to let the British public know what is being done would induce us to publish it.

Particularly, we want to guard against the assumption that we are comprising in the policy of raising hostility between Great Britain and France. The French people are innocent, still more strictly would we guard against the idea that we are encouraging colour prejudice. But for the very reason that we champion the rights of the African native in his own home, we deplore that he should be used as a mere instrument of revenge by an imperialist Power.

A DELIBERATE POLICY

By R. D. Morel.

In addition to: Frankfurt, Darmstadt, Offenbach, Rems, Hambach and Wiesbaden have been occupied. The troops (20,000 consisted entirely of Black men, only the officers being white). The Daily News April 14.

In the column of the Daily Herald yesterday I wrote that in what was happening to the population was a total collapse of the Belgian front, since most of the Belgians are being taken care of in a state of semi-starvation. The Belgians, it seems, are the cost to the town of those brotherhoods is more than 70,000 marks. We are told that the Belgians are being given food, but according to the telegrams, only a few of the sentences were carried out, as a telegram from the Government arrived.

BLACK HORROR ON THE RHINE
.. the recent EU-Africa strategic partnership is not as new as it may seem, and this is most clearly seen in the area of migration (Hansen and Jonsson 2011, p. 29).
As a conclusion: Studying up!
